**Dedicated to making quality timber frames to suit all Australian conditions A&M Joinery are excited to introduce our new range of Bushfire Resistant door frames. Designed to comply with Australian Standards 3959 and up to and including BAL 29 requirements these frames are perfect for bushfire prone areas. Made from quality hard wood our new Bushfire Resistant Range performs to the highest standard.**

## **BAL 29**

# **Compliant Frames**

## **BAL 29**

**Subject to increasing level of ember attack together with an increasing heat flux than BAL 19, but not having heat flux greater than 29 kW/m<sup>2</sup>. BAL 29 compliant frames are made from quality Merbau timber and fitted with aluminium sills and bushfire rated weatherseals as standard.**
