

BIFOLD DOORS

TIMBER BIFOLD SYSTEMS

Timber Bi-folding door systems are the perfect way to open your living areas to your outdoor entertaining area. A Timber Bi-fold system will add style and sophistication to your home, unlike any other door frame. Aluminium Frames can be cold and unwelcoming, however a Timber Bi-fold frame will add warmth and colour to your living and entertaining areas.

All A&M Joinery Timber Bi-fold Systems are custom made to suit any opening. Systems can range from two to sixteen doors

All Bi-fold systems manufactured are custom made to suit the clients' specifications. Diagrams A and B show the standard possibilities for a 3 door system. Diagrams C, D and E show the possibilities for a 4 door system. More combinations are available.

A&M Joinery also manufactures Bi-fold systems that incorporate other practical features. Including awning sidelites, high-lights or even Sash-less window door inserts.

Timber Types:

- Dark Red Meranti (Standard)
- Other Options
 - Jarrah
 - Cedar
 - Victorian Ash
 - Other Requested

All Frames made to suit Australian Standards

Only high quality hardware is used so your Bi-fold system will be durable and functional, as well as modern and aesthetically pleasing. By choosing to use Brio stainless steel hardware with Zanda door handles as standard, your Bi-fold system will continue to look new for years after installation.
